

Supplementary Figure S1. One simulated participant's record (intravenous pembrolizumab arm)

Baseline
age: 65.9
sex: male
race: asian
ethnicity: hispanic or latino
ecog performance status: 1
weight: 64.3
height: 196.9
body mass index: 16.6
body surface area: 1.9
hemoglobin: 12.1
heart rate: 74.5
systolic blood pressure: 103.3
diastolic blood pressure: 71.6
creatinine clearance: 85.8
left ventricular ejection fraction: 73.6
smoking status: former
diabetes: no
non small cell lung cancer diagnosis: nonsquamous
tumor histology: predominantly squamous histology
region: Rest of the World
